Welcome to  
Westminster Place

# LIFE at Westminster Place

We believe in a healthy work-life balance. LIFE is not all about work, we want Westminster Place to feel like a home from home, a place for wellbeing.

Community is at the heart of Westminster Place, which is why we deliver a comprehensive programme of events and classes designed to encourage engagement between you, your team, and your neighbours.

## Introducing the LIFE App.

Helping tenants, building staff and local businesses to connect, our LIFE app helps you to customise your day at the touch of a button. Simply open the app, check out the latest café deals, book into the next gym class or attend one of our curated events. Come and learn new skills, get to know your neighbours, and enjoy LIFE at Westminster Place.

# A place for sustainability

## Going the Extra Green Mile

We are continuing to improve the green credentials of our buildings through a number of national initiatives. We believe small changes everyday make a big difference over time. We see our tenants as partners in our journey to make the built environment a more sustainable place.

### Green Waste

Waste management is an important aspect of our sustainability strategy. We are on track to hit our target of 100% diversion from landfill, and recycle as much of our waste as possible. 67% recycling rate achieved at present.

### Green People

An important part of our landlord funded events calendar is our sustainability series. We believe every tenant is an ambassador of our building, we're invested in supporting small changes at work and home to support a better environment sector.

### Green Travel

Reducing our tenants daily travel footprint is an important part of our refurbishment strategy. We provide free bike hire in several of our employment sites, as well as enhanced bike storage and shower facilities in most sites. This helps to encourage cycling to work. Each cycle rack and shower facility has the ability to reduce hundreds of car miles per year.

### Green Power

CEG have moved to a 100% renewable electricity tariff in order to minimise our environmental impact and encourage the renewable.
